

PCB REPAIR — OUTREACH SCRIPTS

ITS — Industrial Technology Solutions | August 2026

SCRIPT 1: GATE VISIT (30 Seconds)

Target: Factory maintenance manager or gate guard

"Salam. I repair blown circuit boards — CNC, PLC, VFD, power supplies. Flat rate 3,000 to 5,000 DA, same-day service. If I can't fix your board, you pay nothing."

Ask:

- - "How many boards have you replaced in the last year?"
- - "Can I take a look at any dead boards you have? I'll diagnose it for free."
- - If guard: leave flyer + ask "Who handles maintenance here?"

SCRIPT 2: COLD EMAIL — Plant Managers

Subject: We repair blown PCBs — 50% less than replacement

Bonjour,

If your team has replaced any circuit boards in CNC machines, PLC racks, VFDs, or power supplies recently — we can likely repair them for a fraction of the cost.

ITS is a Skikda-based industrial service provider. Our PCB repair service:

- Flat-rate pricing: 3,000–5,000 DA per board (same-day)
- Component-level repair: We diagnose and replace failed components
- 30-day warranty: If it fails again, we fix it free
- No-fix-no-pay: If we can't repair it, there's no charge

We also do custom PCB design and full industrial electrical/automation work.

Can I stop by for 10 minutes to show you what we do?

Khemis

SCRIPT 3: SUPPLY SHOP PITCH

Target: Parts supplier counter staff / owner

"Salam. I run a PCB repair shop. I fix CNC boards, VFDs, power supplies — same-day service."

The pitch:

- "Give me names of 3 factories that buy electronic replacement parts. I'll fix their boards instead. And I'll buy ALL my components from you."
- Leave flyer + business card.
-

Follow-up: visit same shops weekly with small talk, build relationship.

PRICING REFERENCE

Service	Price
PCB Diagnostic & Repair (standard)	3,000–5,000 DA flat rate
PCB Diagnostic & Repair (rush same-day)	5,000 DA flat rate
