

INDUSTRIAL TECHNOLOGY SOLUTIONS

Two Disciplines. One Reliable Partner.

TECHNICAL PROPOSAL

Prepared for: [Client Company Name]

Date: [Date]

Proposal Reference: ITS-[Year]-[Number]

Contact: [Your Name] — Lead Engineer

☎ 0699 32 40 76 | ✉ industrialtechnologysolutions2@gmail.com

📍 El Harrouch, Skikda, Algeria

1. The Challenge

[Describe the client's specific technical issue. Be specific — reference the machine/system, the symptoms, and the impact on their operations.]

- Current situation: [e.g., Frequent unplanned downtime on Production Line 3]
- Root cause identified: [e.g., Aging control panel with intermittent PLC faults + worn mechanical drive train]
- Business impact: [e.g., 12+ hours of lost production per month ≈ XXX,XXX DA in lost output]

2. Our Solution

[Briefly explain the technical fix. Keep it clear — this is for the decision-maker, not the technician.]

Scope of Work:

- [Deliverable 1: e.g., Replace control panel with new IEC-compliant enclosure, integrate existing VFDs]
- [Deliverable 2: e.g., Rewire motor control circuit, install new safety relays]
- [Deliverable 3: e.g., Rebuild mechanical drive assembly — replace bearings, seals, and coupling]
- [Deliverable 4: e.g., Full system commissioning — load test, safety validation, operator handover]

Timeline: [X] working days from project kick-off.

3. Return on Investment

This is not just a repair — it's an investment in production reliability.

Estimated Impact:

- Reduced unplanned downtime: ~[X]%
- Extended equipment lifespan: +[X] years
- Improved energy efficiency: ~[X]% reduction in power consumption

- Eliminated vendor coordination delays (electrical vs. mechanical)

Estimated annual savings for [Client]: [XXX,XXX DA]

4. Investment Summary

Item	Amount (DA)
Labor ([X] hrs × 1,000 DA/hr)	[XX,XXX]
Materials & Components	[XX,XXX]
Materials Markup (15%)	[X,XXX]
Risk Buffer (7.5%)	[X,XXX]
Profit Margin (25%)	[XX,XXX]
TOTAL PROPOSED INVESTMENT	[XXX,XXX] DA

Payment Terms: Full upon completion of works.

Validity: This proposal is valid for 15 days from the date above.

5. The Master Guarantee

Every project delivered by ITS carries the Master Guarantee:

Before any work is handed over to you, I — the Lead Engineer — personally conduct a comprehensive engineering audit and final safety inspection. This is not a checkbox. It is a full technical review of every connection, every weld, every line of code, and every safety system.

If it does not meet my standard, it does not leave our workshop.

[Your Name]

Lead Engineer — ITS Industrial Technology Solutions

Signature & Date

6. Next Steps

To move forward with this proposal:

- Review — Confirm the scope, timeline, and pricing above
- Approve — Sign the Statement of Work and return to ITS
- Schedule — We'll coordinate a start date within [X] business days of approval
- Execute — Our team mobilizes. You receive progress updates weekly
- Handover — Final inspection under the Master Guarantee, then full sign-off

We look forward to partnering with [Client Company Name].
