10-POINT EQUIPMENT HEALTH CHECKLIST

Instructions: Walk through each check point. Mark PASS, FAIL, or N/A.

1. Electrical Panel Inspection

- ☐ Check for overheating signs
- ☐ Verify breaker ratings
- ☐ Inspect wiring
- ☐ Check seals
- ☐ Test E-stop

2. Motor & Drive System

- ☐ Listen for bearing noise
- ☐ Check motor temperature
- ☐ Verify VFD settings
- ☐ Check coupling/belts
- ☐ Cooling fan operation

3. PLC & Control System

- ☐ Check PLC status lights
- ☐ Verify backup battery
- ☐ Review fault logs
- ☐ Test HMI response
- ☐ Network communication

4. Mechanical Wear Indicators

- ☐ Check gearbox oil
- ☐ Inspect bearings
- ☐ Shaft alignment
- ☐ Check seals for leaks
- ☐ Vibration levels

5. Hydraulic & Pneumatic Systems

- ☐ Check fluid level/condition
- ☐ Inspect hoses
- ☐ System pressure test
- ☐ Cylinder seals
- ☐ Filter condition

6. Safety System Verification

- ☐ Test all E-stops
- ☐ Light curtains alignment
- ☐ Guard interlocks
- ☐ Alarms/warning lights
- ☐ Safety relay status

7. Thermal Imaging Scan

- ☐ Scan main panel hot spots
- ☐ Motor terminals
- ☐ Transformer connections
- ☐ Cable joints
- ☐ Document all images

8. Lubrication Review

- ☐ Check lubrication points labeled
- ☐ Grease levels
- ☐ Review log
- ☐ Correct grade?
- ☐ Auto-system operation

9. Spare Parts Criticality

- ☐ Critical spares stock?
- ☐ Shelf life of seals
- ☐ Electrical spares
- ☐ Lead times
- ☐ Create min stock list

10. Master Guarantee Sign-Off

- ☐ Review findings with team
- ☐ Prioritize by risk
- ☐ Create action plan
- ☐ Assign responsibility
- ☐ Schedule follow-up
